Thank You

Dear University Relations Family

Whether you send a note, lit a candle, said a prayer, attended the visitation or funeral or shared a hug and smile at my mom's death, you helped me during a very difficult time. I offer my appreciation and gratitude - and count you each among my many blessings.

This journey with mom has made me realize there are two circles of love, one here on earth and one in Heaven. For me the "passing" is the intersection of these two circles. Thanks for being part of my earthly circle of love.

Gratefully,
WBY

Your kindness and sympathy are more deeply appreciated than any words of thanks can ever express.
